Library Databases

Gale Virtual Reference Library

Containing encyclopedias and specialized reference sources, Gale Virtual Reference Library assists with research over a number of disciplines. An ideal database to use when you need quality background information

Academic Search Complete

Multi-subject database which contains indexing and abstracts for more than 13,000 journals, with full text for more than 9,000 of those titles. Full-text coverage in Biology, Chemistry, Engineering, Physics, Psychology, Religion & Theology, and more subjects;

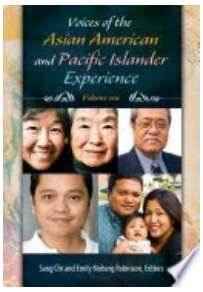

America's Historical Newspapers

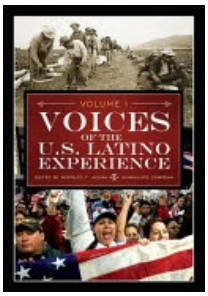

Use America's Historical Newspapers to find news articles covering topics in American history including government, politics, social issues, culture, discoveries, inventions and more from hundreds of primary sources. Available as a Database from the Library website

Books and eBooks

Reference Books

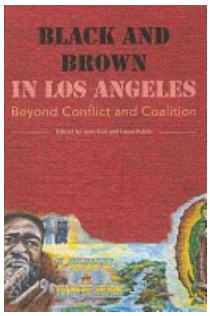

Before you search for in-depth information on a particular topic, it is a good idea to first locate background information using reference resources. Encyclopedias, almanacs and dictionaries are just a few of the numerous reference resources available on the 1st Floor of the Library. Students and faculty also have access to a wide variety of online reference materials (see *Gale Virtual Reference Library*).

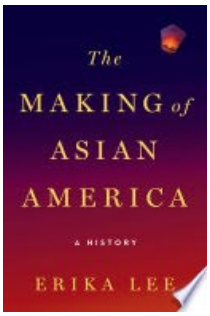

Books and eBooks in the General Collection

Located on the 2nd Floor, the Library has thousands of books across numerous topics that are available for checkout. Likewise, the Library has access to thousands of eBooks that are available to students under the **Databases menu** on the Library's website.

Websites and Primary Resources
