Discussions with Prof Carlin about CIS 111 LIS

Tuesday, February 26, 2019 3:28 PM

Hi Prof. Carlin,

My name is Tim and I will be the librarian providing instruction to your **CIS 111 students on 3/4/19 at 10:30 am.**

Before each library instruction session, I typically like to reach out to the instructor and see if there are any upcoming assignments for their class that I should be aware of.

If there are any upcoming assignments connected to library research, please send me the assignment prompt and any other relevant documentation.

Do you have any specific instructions for what you would like for me to cover during the library instruction session?

Below are some of the general topics that typically get covered over the course of one session:

- Finding books and eBooks in the Library.
- Using the Library's new *OneSearch* service to find academic journal articles, newspaper articles, and magazine articles.
- Using reference resources (like *Gale Virtual Reference Library*) to find reliable background information on a topic.
- Developing college-level research topics and searchable keyword lists.
- Using Boolean language (AND, OR, NOT) to construct a logical and focused search.
- Using database citation tools to create a list of properly formatted (APA or MLA) references.

Other than that, I just wanted to add that I look forward to meeting you and your students on 3/6!

Thanks,
Tim Ream

Hi Tim,

Thanks for doing this. I have attached the assignment just in case it was not forwarded to you.

What is the room number that I should tell students to report to?

Thanks,
Anna

Thanks Prof. Carlin.

We'll be meeting in Room 827 on the 2nd Floor of the Library.
