Published Edit

Assignment: Bibliography

Overview

The goal of this assignment is for you to combine the articles that you gathered in Weeks 7 through 8 into a single Works Cited page. Your sources should include the following:

- 2 articles from the Fullerton College Library (periodical or academic journal) - Week 7
- 2 books or e-books from the Fullerton College Library - Week 7
- 2 websites from the Internet - Week 8

As you receive grades and revision suggestions on the assignments you submitted in Weeks 7 - 8, please take the time to work on your citations. Revise, revise, revise. Use the revised citations and create a bibliography (this is called a Works Cited page in MLA). You will cite your sources in MLA format. The citations must follow MLA Works Cited page format. Please refer to the OWL at Purdue for citation information and page layout.

Tasks

1. Use the citations you submitted in Weeks 7 and 8 (revised based on comments from me).
2. Alphabetize the 2 articles, 2 books or e-books, and 2 websites as a single document.
3. Cite your sources in MLA style (including page layout, spacing, consistent font, and Works Cited).
4. Submit your Bibliography Assignment as a Word document in Canvas. The document name should follow this formula: yourlastname_Bibliography_Assignment. For example, my assignment would be Rosen_Bibliography_Assignment.

You will have several weeks to work on and perfect this assignment. It carries the largest number of points, so you will want to revise and edit the citations several times based upon the comments I included for the assignments from Weeks 7 - 8. Although it is assigned in Week 7, it is not due until Week 9. Don’t take this as an opportunity to procrastinate. In my experience, the students who started early and asked for feedback before the due date earned the highest scores. Use the feedback you receive on the Citing Articles and Books and Citing Websites Assignments to help you perfect your citations.

This assignment will be graded using a rubric. It is based on the topic selected and approved from the Topic Selection Assignment in Week 4. It is worth 25 points and supports the Instructional Objectives:

- Organize and perform independent research utilizing traditional as well as online research tools and resources.
- Evaluate, collect, and organize research material into an accepted bibliographical format.
- Design and implement research strategies that demonstrate information literacy skills.
- Distinguish among different types of resources.
